CANARA PAPER PACKAGING

#77/113,15th CROSS SRIGANDHANAGAR, HEGGANAHALLI, BANGALORE-560091

To

Sir,

Sub: letter of introduction.

We are in the field of Printing and packaging for more than 30 years, we have corrugated box manufacturing units in **Bangalore, Mysore** and **Mangalore in the name of CANARA PAPER PACKAGING,CANARA PAPER PRODUCTS,COSTAL PACKAGING INDUSTRIES and BEST CORRUGATORS MYSORE.**

Machinery details of 3 units in Bangalore.

Fingerless B flute corrugation high speed machine(china make)	1 No
Fingerless C flute corrugation high speed machine(china make)	1 No.
Pneumatic cutting machine (china make)	1.No.
Automatic Sheet Laminator (china make)	1 No.
2 Colour Printer Slitter Die Cutter (china make)	1 No
Flap gluing machine (china make)	1no.
B- Flute corrugation Machine	2nos.
Automatic cutting machine	3nos.
Flexo printing machine	2nos
Sheet Pasting machine	5nos.
Pressing machine	3nos.

Rotary creaser machine	4nos
Slotting machine	3nos.
Pinning machine	7nos
Backup generator	3nos.

In house screen-printing facility and lab testing equipments.
(Bursting Factor/Bursting strength/GSM/COBB / Viscosity/Moisture/RCT/Ect/Compression Strength)

Now we had started fully automatic corrugated plant with online printer slotter die cutter, fully automatic flap pasting and fully automatic pining, facility under one roof at mysore

Our clientele includes liquor manufacturers, agarbathi manufactures, sea food exporters etc.,
We also supply to corporates mainly **HLL,TATA,L&T** ,**ITC** (Garment) etc;
Our boxes are well appreciated for the finish and quality by one and all.
We also have an **offset printing** unit under the name of

Reeth Prints in Bangalore.

We have a Mitsubishi daya Printing machine of size 28" X 40" 4 color + coater, 2 Punching machines , 2 Pasting machines , UV curing , programmable cutting machine and lamination machine. These machine are run by professional operators and experienced supervisors, under one roof .
We request you to kindly enroll our name in your suppliers list for printing and supply of corrugated Boxes, mono carton , labels. .
We are printing Electronic items boxes, Pressure cooker boxes, wedding invitations, printed labels for export tins etc.
We do Agarbathi boxes for KSDL, Vasu exports Mysore, Shalimar Agarbathi, Onam Agarbathi Bangalore,and beloorbayir Biotech ltd.(Ayurvedic Medicen) Bangalore.Wipro Lighting Mysore.
Kindly give us a chance to serve you, we await your early reply in this regard.

OUR AUTOMATIC PLANT MYSORE

COMPANY PROFILE

01 – INFRASTRUCTURE

1.	Total land area – 5 acres
2.	Total Built up area – 1.10 Lac square ft. one single hall and 10,000 square ft. secondary hall
3.	In house facility to accommodate workers stay with 12 rooms.

02 - CORRUGATOR

We have ***Two*** fully automated 5 ply corrugator machines. J.S Corrugator , China and Hsieh-Hsu , Taiwan.

J.S Corrugator speed – 150 mtrs / min.

Hsieh – Hsu Corrugator speed – 250 mtrs / min.

Available flute profiles – A,B,C,E,AB,CB,BE

Additional features – Splicers, Web aligner , HMI size setting.

Plant Capacity - 2,500 tons

03 – CASEMAKER

Casemaker process involves printing, slotting, glueing and bundling.

We have state of the art casemaker ***BOBST FFG 8.20*** Discovery which is a France make.

This machine produces 18,000 cartons per hour with precise printing, cutting and folding.

04 – PRINTING AND SLOTTING

We also have ***Six*** other Printer – Slotters available with each machine capable to convert 9,000 boxes per hour.

We have provision to print single colour , two colours and four colours as well on the boards with these machines.

We have provision for die cutting as well to produce custom boxes with specific key line diagrams.

05 – FOLDER GLUER & FOLDER STITCHER

We have ***three*** auto folder gluer machines with auto counting and auto bundling with each having a production capacity of 9,000 boxes / hour.

We have ***two*** auto folder stitcher with auto counting and auto bundling with each having a production capacity of 6,000 boxes / Hour

06 – 8 COLOUR FLEXO REEL TO REEL PRINTING

We have an eight colour flexo paper reel to reel printing machine which provides printing quality equivalent to offset printing.

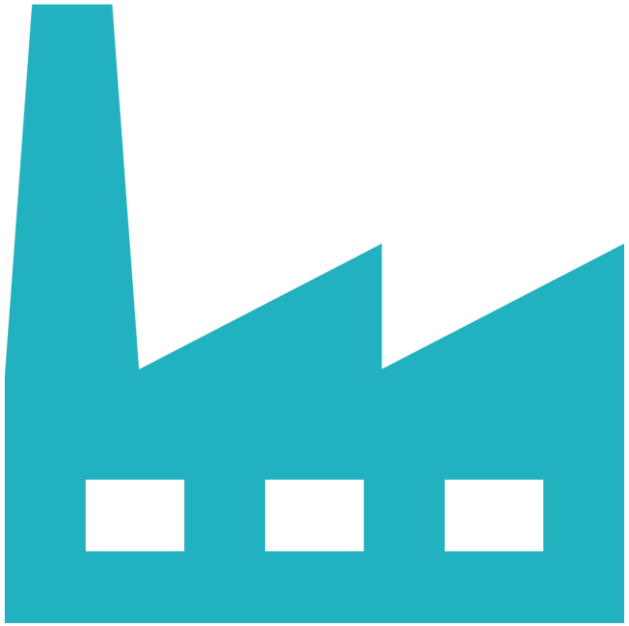
The machine has auto registration setting and auto correction in case of any deviation in registration.

This printed reel will be fed as top layer in corrugation. Hence, multi colour cartons can be produced in a fully automated process which increases compression strength and avoids moisture issues which would arise in conventional system.

With this process, we can deliver even 2 lac multi colour boxes per day.

07 – BOILER

And one more of 5-ton capacity.



08 – GLUE KITCHEN

We have ***two*** auto glue kitchen where the adhesive used for corrugation is prepared with a recipe and raw materials such as starch powder, borax, caustic soda, water etc.

This auto glue kitchen helps in maintaining quality without any variations in glue preparation from one batch to another. Hence, the individual layers bonding in the corrugated board would be precise.

09 - TRANSPORTATION

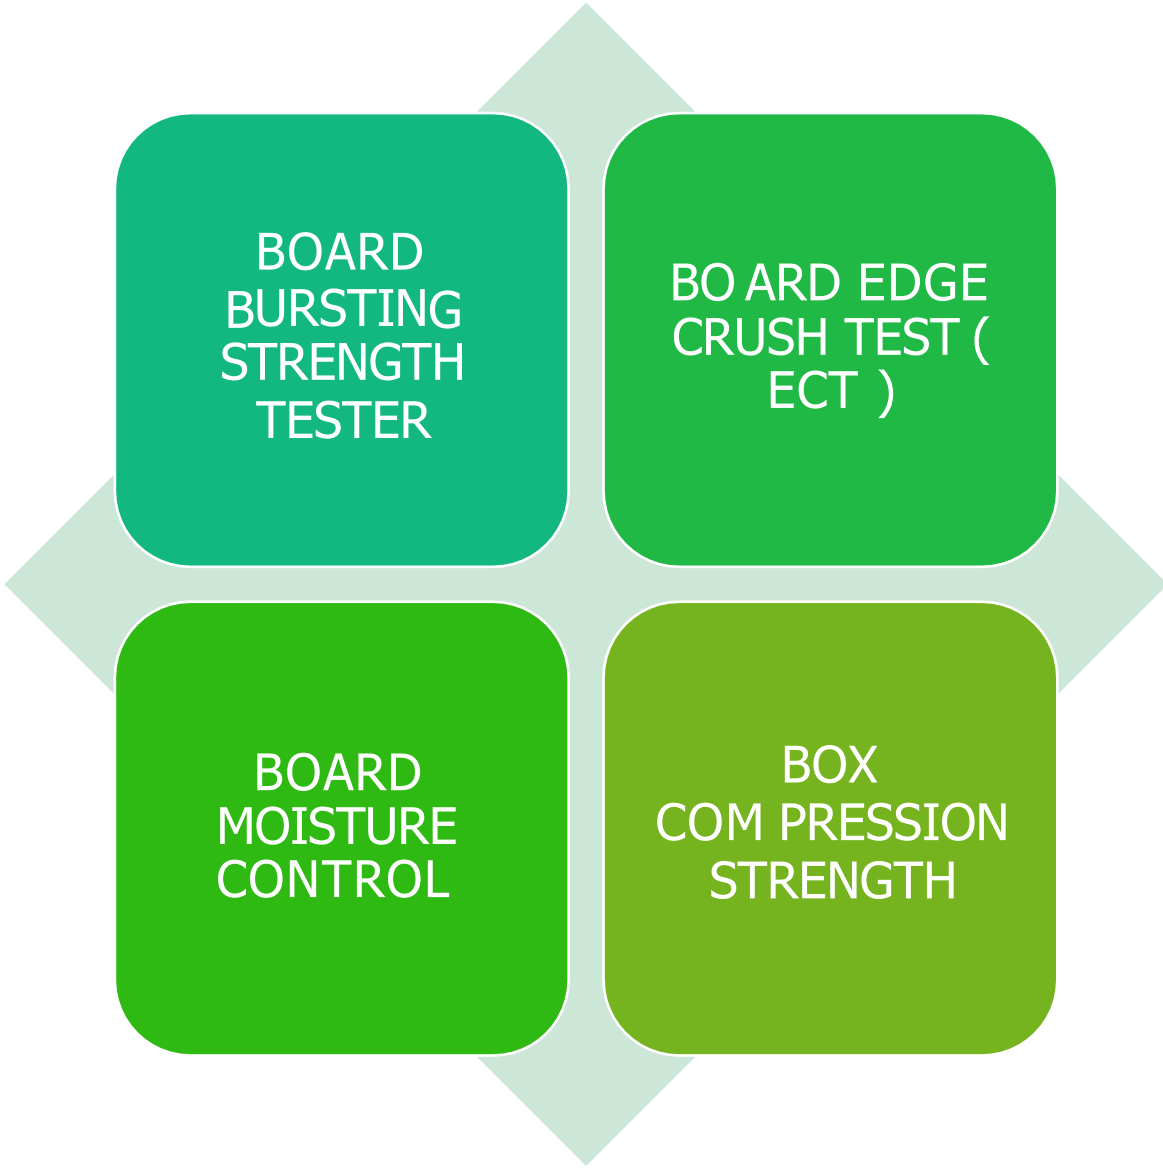
- We have ***six*** of our own vehicles for transportation with truck size ranging from 16ft to 24ft.
- Also, we have tie ups with 3-4 transporters to cater our requirements.

INWARD QUALITY CONTROL

We have the following set of machinery to test the inward quality of materials such as kraft paper, starch, glue , ink etc..

- Paper GSM tester
- Paper Cobb tester
- Paper RCT (Ring Crush Test) tester
- Paper Bursting strength tester
- Adhesive gum Viscosity
- Ink densities – Spectro photo meter
- Adhesive solid content

OUTWARD / IN PROCESS Q C CONTROL



FINSYS – A CUSTOMISED ERP FOR CORRUGATION INDUSTRY

- We have implemented customized ERP for corrugation industry which provides many M.I.S reports such as :
- Ageing reel reports
- Customer wise sales & purchase
- Wastage reports
- Barcode inward and consumption of reels and other raw materials
- Several reports on finance , inventory , sales and purchase modules.

OUR MAJOR CLIENTS

BRITANNIA INDUSTRIES	UNITED BREWERIES	PAGE INDUSTRIES	M.K AGROTECH – SUNPURE	FIRSTCRY
